

SBR: SMART BUSINESS REVIEW

Revolutionizing E-Commerce Sales with AI-Driven Video Automation &
Data Intelligence

The Core Challenge

Scaling high-quality video content is slow, expensive, and technically complex for modern sellers.

THREE-TIER PRICE STRATEGY

The Pricing Hook

AI automatically pulls the lowest variant price to create high-conversion marketing "hooks" that stop the scroll.

Data Integrity

Real-time display of price ranges (e.g., ฿149 - ฿250) ensures customer trust and accurate expectations.

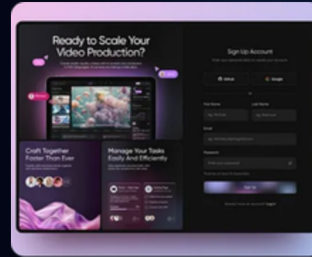

Manual Control

Hybrid UI allows users to override data with custom promotional prices directly in the preview dashboard.

THE SBR COMMAND CENTER

-  **Unified Link Input:** Simple paste mechanism for Shopee, TikTok, and Lazada products.
-  **Style Selection:** One-tap selection for video templates, voice tones, and AI logic.
-  **Flutter-Powered UI:** Responsive, high-performance interface designed for rapid workflow.

PYTHON ENGINE ARCHITECTURE

FastAPI Backend

High-speed API endpoint to handle complex JSON payloads and orchestrate AI task queues efficiently.

AI Script Generation

Advanced LLMs analyze scraped product data to write persuasive, high-impact marketing scripts.

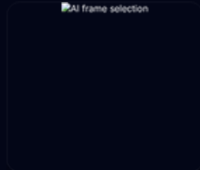

STEALTH SCRAPING

Our proprietary engine uses Playwright Stealth to mimic human behavior, ensuring 100% data retrieval from protected marketplaces without detection.

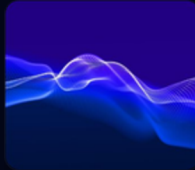

- 🔑 User-Agent Rotation
- 🖱️ Human-Like Scrolling
- ⌚ Random Delay Logic

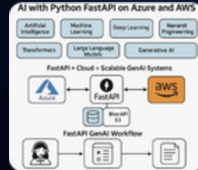

AI SCENE SELECTION

Product Recognition: CV models identify the most iconic product angles.

Clean Frame Analysis: OCR filters out messy text or competing branding.

Action Detection: Capturing dynamic movement and "Unboxing" energy.

UNIFIED DATA PAYLOAD

Key Attribute	Data Type	Functionality
video_id	String	Unique identifier for video management.
ai_script	Text	The AI-generated narration for TTS engine.
images_list	Array	Ordered list of generated images/frames.
voice_id	String	Selected persona (e.g., "v2_teenager").

PROFESSIONAL VIDEO RENDERING

- Dynamic Transitions:** Smooth cross-fades and zoom-cuts.
- Smart Color Grading:** Auto-leveling and vivid LUT application.
- Audio Synchronization:** Frame-perfect alignment with voice timestamps.
- FFmpeg Mastery:** High-speed hardware-accelerated processing.

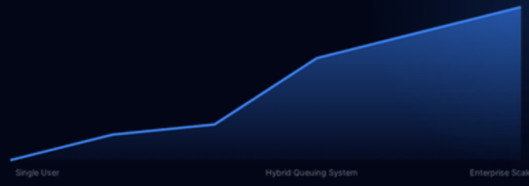

DYNAMIC ENGAGEMENT BOOST

3.5_{CTR INCREASE}
X

The Ultimate Subtitle Suite

Combining **Karaoke Highlights**, **Pop-up Animations**, and **Big Hook Text** creates an unbreakable loop of engagement that keeps viewers watching until the final CTA.

RENDER PIPELINE EFFICIENCY

Our hybrid queuing logic handles peak loads by intelligently balancing instant rendering with background task management.
